Obituary for Anne-Marie Howe

It was with great sorrow that we received the news that our board member Anne-Marie Howe had died suddenly. Anne-Marie, who was resident in California, became a member of the Poul la Cour Foundation board in 2014 and we were extremely grateful for her expertise in the wind energy field, as well as her many international contacts which have been of great benefit to us. Anne-Marie also had a good understanding of the international market.

Anne-Marie was only in Denmark once a year, therefore we used Skype for our board meetings. This didn't hinder the effective co-operation and joint efforts which we have always had in our board meetings. We will miss Anne-Marie's great knowledge as well as her energy and positive approach.

Christian Ditlev Rasmussen – a new member of the Poul la Cour Foundation board.

Following our articles of association, we can ask The Museum in Sønderkov to appoint a member to our board. This year, a new representative has been appointed in the form of museum curator Christian Ditlev Rasmussen.

Christian is an historian from Aarhus University, with a secondary line in business economics, and has most recently worked as a museum curator for The Museums of Fredericia. Previously, he was a museum inspector at Nyborg Castle.

We look forward to working with Christian and benefitting from his previous experience.

Postponement of 20th anniversary celebration.

The board has decided to postpone the celebration until 2021. The event should have taken place on 23rd October this year.

The Poul la Cour Foundation was founded in 2000 and the museum was opened the following year. It will therefore be the museums 20th anniversary that we celebrate. We have not yet decided the date of the celebration next year.

The reason for moving the celebration to 2021 is that we are uncertain about the COVID-19 situation and its development during the remainder of the year.

Of course, the museum was closed during the summer but is now open again. Naturally, we take the all the necessary precautions for our visitors and staff.

Kind regards
Bjarke Thomassen
